

Alternative subsection 92(3)

Export from  
provinces

(3) In each province the legislature may make laws in relation to the export from the province to another part of Canada of the primary production from non-renewable resources and forestry resources in the province and the production from facilities in the province for the generation of electrical energy, but such laws may not authorize or provide for

- (a) prices for production sold for export to another part of Canada that are different from prices authorized or provided for production not sold for export from the province; or
- (b) the allocation of production sold for export to another part of Canada on a basis that is different from that authorized or provided for production not sold for export from the province, unless the authorization or provision is justifiable and necessary for the purpose of ensuring an adequate supply of the production for the residents of the province.
